

# 煤田地质与勘探

MEITIAN DIZHI YU KANTAN

2022 年第 10 期

(月刊 1973 年创刊)

第 50 卷 总 298 期

## 目 次

### ·煤炭地质 矿井地质·

- 深部变面长采场顶板破断演化的力学机制分析 ..... 王新丰, 陆明远(1)
- 煤系正断层带影响下的煤层瓦斯赋存规律 ..... 肖 鹏, 吴铭川, 双海清, 韩 凯, 高 振, 程玥颖(16)
- 沿抽采井筒的煤储层渗透率模型研究 ..... 贾荔丹, 张 林, 李波波, 吴学海, 高 政, 王忠晖, 付佳乐(26)

### ·煤系气 煤伴生矿产·

- 煤系非常规天然气一体化压裂液体系研究与应用 ..... 徐 栋, 王玉斌, 白坤森, 朱卫平, 刘川庆, 李 兵, 何朋勃(35)
- 贵州普安矿区 20 号煤中锂的赋存状态及逐级化学提取实验研究 ..... 程 晨, 宋 杨, 臧静坤, 程 伟(44)

### ·水文地质 工程地质 环境地质·

- 煤矸石固废无害化处置与资源化综合利用现状与展望 ..... 王玉涛(54)
- 浅埋煤层过沟开采覆岩裂隙与地表裂缝演化规律数值模拟 ..... 魏江波, 王双明, 宋世杰, 孙 强(67)
- 吹填软土 UU 三轴剪切应力松弛特性试验研究 ..... 杨爱武, 杨少朋, 齐杰杰(76)
- 煤矸石堆积区土壤重金属形态组成与生物有效性的空间变化特征——以峰峰矿区为例 .....  
..... 孙 涛, 宋世杰, 常 青, 王晨晨, 张艳杰, 彭芮思, 王 艺(85)
- 黏结强度对异质土界面强度与变形特性影响试验研究 ..... 祝艳波, 杨凡凡, 苗帅升, 李福通, 张宇轩, 韩宇涛, 兰恒星(96)
- 基于 SVM 的地下采煤区沉陷灾害发育敏感性分区研究 ..... 薛永安, 邹友峰, 张文志, 张明媚, 柳广春, 宋明伟(108)
- 能源地下结构研究及应用进展 ..... 温继伟, 侯珺沅, 刘星宏, 曾现恩, 项 天, 陈昊天(119)
- 岩溶构造对地埋管群换热效率影响数值模拟研究 ..... 穆 玄, 裴 鹏, 周 鑫, 屠洪盛(131)

### ·煤田物探 矿井物探·

- 基于方位伽马的煤岩界面探测数值模拟研究 ..... 陈 刚, 陈 龙, 李泉新, 刘志毅(140)
- 大倾角煤层时深转换精度分析及改进方法 ..... 王惠凤, 符 超, 李 果, 陈同俊(145)

### ·钻掘工程·

- 淮南矿区软煤气动定向钻进技术与装备研究及应用 ..... 田宏亮, 陈 建, 张 杰, 程合玉, 董瑞刚, 杜利猛, 刘德贵, 管强盛(151)
- 中硬煤层瓦斯穿层钻孔无泵式双通道机械掏穴钻头设计与应用 ..... 高晓亮, 邵国杰, 杨虎伟(159)
- 套管外绝缘涂层特性对 EM-MWD 信号影响规律分析 ..... 邵 春, 胡 闯, 徐 林, 陈明华, 龙小平(165)
- 基于单目视觉的钻杆位姿识别技术研究 ..... 马 斌, 彭光宇(171)

### ·交叉学科·

- 关闭煤矿工业广场再开发策略研究——以晋城凤凰山矿为例 ..... 王靖翔, 常 江, 邓元媛, 林 岩, 吴浩然(179)

期刊基本参数: CN 61-1155/P\*1973\*m\*A4\*190\*zh\*P\*¥ 40.00\*1500\*20\*2022-10 本期执行编辑: 周建军

## CONTENTS

|                                                                                                                                                                           |                                                                                                                  |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|
| Study on mechanical mechanism of roof fracture evolution in deep stope with variable face length ···                                                                      | WANG Xinfeng, LU Mingyuan(1)                                                                                     |
| Occurrence law of coal seam gas under influence of normal fault zone in coal measures ·········                                                                           | ····· XIAO Peng, WU Mingchuan, SHUANG Haiqing, HAN Kai, GAO Zhen, CHENG Yueying(16)                              |
| Research on permeability model of coal reservoir along producing wellbores ·········                                                                                      | ····· JIA Lidan, ZHANG Lin, LI Bobo, WU Xuehai, GAO Zheng, WANG Zhonghui, FU Jiale(26)                           |
| Research and application of integrated fracturing fluid system for unconventional natural gas in coal measures ·······                                                    | ····· XU Dong, WANG Yubin, BAI Kunsen, ZHU Weiping, LIU Chuanqing, LI Bing, HE Pengbo(35)                        |
| Occurrence modes and stepwise chemical extraction experiment of lithium in No.20 coal seam in Pu'an mining area, Guizhou Province ·······                                 | ····· CHENG Chen, SONG Yang, ZANG Jingkun, CHENG Wei(44)                                                         |
| Status and prospect of harmless disposal and resource comprehensive utilization of solid waste of coal gangue ·····                                                       | ····· WANG Yutao(54)                                                                                             |
| Numerical simulation on evolution law of overburden fractures and surface cracks in crossing ditch mining of shallow coal seam ·····                                      | ····· WEI Jiangbo, WANG Shuangming, SONG Shijie, SUN Qiang(67)                                                   |
| Experimental study on stress relaxation characteristics of soft dredger fill under UU triaxial shear ·········                                                            | ····· YANG Aiwu, YANG Shaopeng, QI Jiejie(76)                                                                    |
| Spatial variation characteristics of soil heavy metal speciation and bioavailability in coal gangue accumulation area—Taking Fengfeng mining area as an example ········· | ····· SUN Tao, SONG Shijie, CHANG Qing, WANG Chenchen, ZHANG Yanjie, PENG Ruisi, WANG Yi(85)                     |
| Effect of initial adhesion on shear strength and deformation characteristics of interfaces in heterogeneous soils ·········                                               | ····· ZHU Yanbo, YANG Fanfan, MIAO Shuaisheng, LI Futong, ZHANG Yuxuan, HAN Yutao, LAN Hengxing(96)              |
| SVM-based sensitivity zoning of subsidence disaster development in the underground coal mining areas ·········                                                            | ····· XUE Yong'an, ZOU Youfeng, ZHANG Wenzhi, ZHANG Mingmei, LIU Guangchun, SONG Mingwei(108)                    |
| Research and application progress of energy underground structures ·········                                                                                              | ····· WEN Jiwei, HOU Junlong, LIU Xinghong, ZENG Xian'en, XIANG Tian, CHEN Haotian(119)                          |
| Numerical simulation of the influence of karst structure on heat transfer efficiency of buried pipeline group ·········                                                   | ····· MU Xuan, PEI Peng, ZHOU Xin, TU Hongsheng(131)                                                             |
| Numerical simulation on azimuth gamma ray detection of coal and rock interface ·········                                                                                  | ····· CHEN Gang, CHEN Long, LI Quanxin, LIU Zhiyi(140)                                                           |
| Time-to-depth conversion accuracy analysis and improvement method for inclined coal bed ·········                                                                         | ····· WANG Huifeng, FU Chao, LI Guo, CHEN Tongjun(145)                                                           |
| Air-driven directional drilling technology and equipment in soft coal seam of Huainan mining area ·········                                                               | ····· TIAN Hongliang, CHEN Jian, ZHANG Jie, CHENG Heyu, DONG Ruigang, DU Limeng, LIU Degui, GUAN Qiangsheng(151) |
| Design and application of pump-free double channel mechanical hole enlarging bit for gas penetration in middle hard coal seam ·····                                       | ····· GAO Xiaoliang, SHAO Guojie, YANG Huwei(159)                                                                |
| Influencing factors of increasing the signal strength of the EM-MWD by applying insulation coating outside the casing ·······                                             | ····· SHAO Chun, HU Chuang, XU Lin, CHEN Minghua, LONG Xiaoping(165)                                             |
| Research on drill pipe pose recognition technology based on monocular vision ·········                                                                                    | ····· MA Bin, PENG Guangyu(171)                                                                                  |
| Redevelopment strategy of closed coal mine industrial plaza: A case study of Fenghuangshan Mine in Jincheng, China ·······                                                | ····· WANG Jingxiang, CHANG Jiang, DENG Yuanyuan, LIN Yan, WU Haoran(179)                                        |
